DETAILED ACTION

Acknowledgment is made of the amendment filed 9/10/04. Claims pending are 12-15, 17, 18 and 20-21. Claims 12, 17, 18 and 21 have been amended.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 12-15, 17, 18 and 20-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 12, 18 and 21 are viewed as indefinite because they recite the limitation "wherein A and B, independently of each other, are each a CH group". It is unclear what is meant by the phrase "independently of each other" in this context since both A and B have to be a CH group.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 12, 13, 17 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Hocquaux et al. (WO 92/21317).

Hocquaux et al. teach a composition for combatting hair loss and inducing hair growth, containing 0.1-10% of a pyridine oxide compound of formula (I). See English Abstract; p. 4, formula (Ib); p. 5, lines 16-25. The composition of Hocquaux et al. is applied to the area exhibiting alopecia one or two times a day. See p. 8, lines 34-35; p. 9, lines 1-2.

Claim Rejections - 35 USC § 103

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
6. Claims 14, 15 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hocquaux et al. (WO 92/21317) in view of Hocquaux et al. (US 5,328,914), of record.

Hocquaux et al. (WO 92/21317) applied as above. The reference does not explicitly teach massaging the composition into scalp. However, Hocquaux et al. (US 5,328,914) teach massaging hair loss reducing compositions into scalp to enhance penetration. See col. 5, lines 38-42. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the method of Hocquaux et al. (WO 92/21317) such that to add a massaging step. One having ordinary skill in the art would have been motivated to do this to obtain enhanced penetration of the composition into the scalp as suggested by Hocquaux et al. (US 5,328,914).

Response to Arguments

7. Applicant's arguments with respect to claims 12-15, 17 and 20-21 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
